### **3D Lifting Fluid Insert**

#### **3D Lifting Fluid**

Are you developing fine lines? Have your skin contours lost their firmness? 3D Lifting Fluid has a triple action. It makes fine lines disappear, firms the tissue and tones contours. Valuable silicone minerals improve the cross-linking and thus the structure of the connective tissue, leaving the skin feeling smoother and firmer. In addition, extracts of the yellow horned poppy reduce the density of subcutaneous fatty tissue and thus minimize the double-chin effect. Facial contours look as if they have been remodeled and appear firmer and more youthful.
